PRICE	TURNAROUND	SAMPLE
CHF 449	14 ±5 days	Urine

WHAT THIS MEASURES

11 mycotoxins

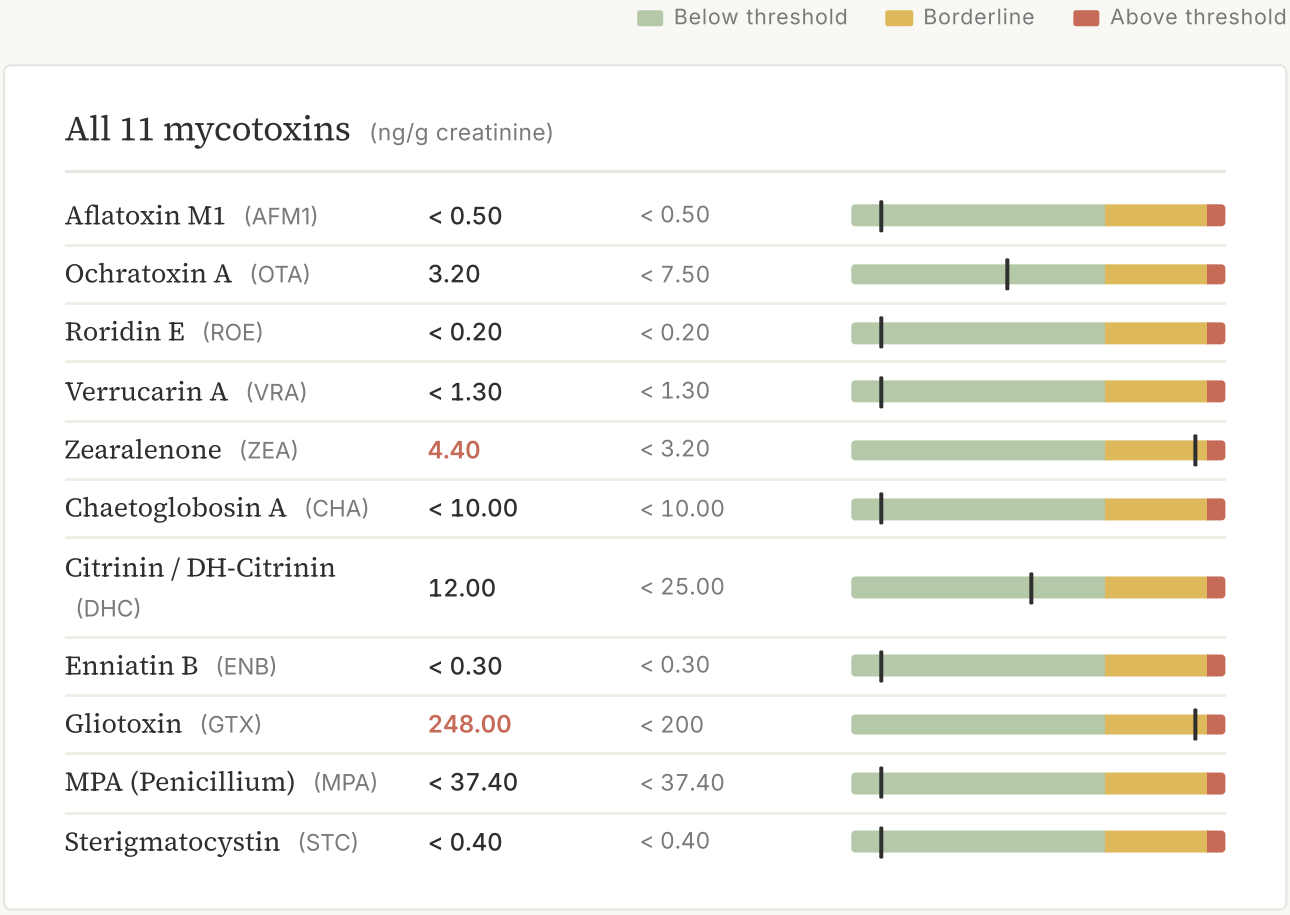

A urine panel for 11 named mycotoxins and metabolites. Use the collection materials at home, record the sample details and return it according to the kit instructions. Your written Health Map is included.

Aflatoxins	Aflatoxin M1
Ochratoxins	Ochratoxin A
Trichothecenes (Stachybotrys)	Roridin E · Verrucarin A
Zearalenone (Fusarium)	Zearalenone
Other mycotoxins	Chaetoglobosin A · Citrinin / Dihydrocitrinone · Enniatin B · Gliotoxin · MPA (Penicillium)

WHAT THE REPORT LOOKS LIKE

The sample laboratory measurements.

Synthetic example values, with no real patient data. Each row shows a measurement and the laboratory comparison interval.

HOW TO READ THE CHART

Reading the measurements.

Read each result with its unit and reference interval.

1. **The name.** Each row identifies the element, organism, hormone or compound measured.
2. **The unit.** The unit states how the laboratory expresses the measurement.
3. **The result.** This column gives the measurement for the submitted sample.
4. **The comparison interval.** The laboratory interval appears beside the result.
5. **Your written report.** Your questionnaire answers and email exchanges provide the information used for your personalised Health Map report.

YOUR INCLUDED HEALTH MAP

A personalised written report.

Every Deepcare kit includes a written Health Map report. It is prepared from personalised questionnaires, your results and email exchanges.

- After payment, the first personalised questionnaire arrives by email.
- Follow-up questions come by email or a further questionnaire when needed.
- The final report is written in your language: English, French or German.
- You receive it within 3 working days of your answers to the last questionnaire.

> *A written explanation you can keep and share with your GP.*

COLLECTION AT HOME

Collecting your urine sample.

Use the materials and collection schedule supplied with your kit. Follow the laboratory instructions for drying or storage and return shipping.

STEP 01

Record the sample details

Complete the laboratory form and label each sample with the requested details.

STEP 02

Collect in the supplied container

Use the urine container and follow the collection instructions supplied with the kit.

STEP 03

Freeze the specimen and gel pack

Seal the specimen and gel pack in the supplied biohazard bag. Freeze both completely before packing and dispatch, usually about 6 hours.

STEP 04

Return to the laboratory

Once both are fully frozen, pack in the supplied thermal envelope and return box. Dispatch promptly, preferably within 48 hours of collection.

ABOUT THE METHOD

LC/MS at parts-per-trillion.

Mosaic Diagnostics · LC-MS/MS.

The named compounds are measured in the submitted sample. Results are shown with the laboratory units and comparison intervals.

See the kit page on deepcare.ch for the full marker list and scientific references.

WHAT HAPPENS NEXT

How ordering works

TODAY

Order on deepcare.ch

Pay by card or TWINT. Your first personalised questionnaire arrives by email.

2 TO 3 WORKING DAYS

Kit ships

The kit contains a collection cup, gel pack, biohazard bag, absorbent pad, thermal envelope, instructions and prepaid return materials.

MORNING COLLECTION; FREEZING USUALLY 6 HOURS

Preparation for dispatch

The collection itself takes a few minutes. Then freeze the sealed specimen and gel pack completely, usually about 6 hours. Only then pack in the thermal envelope and dispatch, preferably within 48 hours of collection.

AFTER THE FINAL QUESTIONNAIRE ANSWERS

Your written Health Map

You receive it within 3 working days of your answers to the last questionnaire.
